# WALL GUNS®

WALL **GUNS**® is an innovative line of hi-tech cleaning and maintenance products for weapons and firearms, manufactured by NOWAL CHIMICA, an Italian company certified TÜV and ISO 9001, partner of key chemical multinationals.

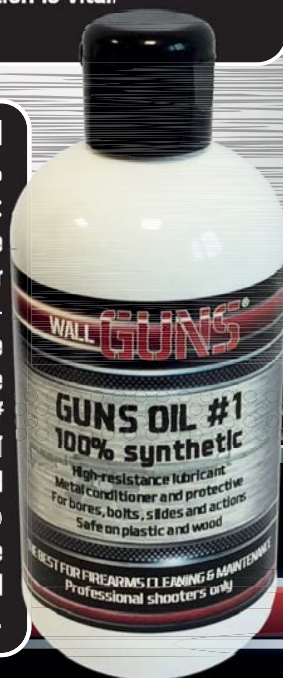

WALL **GUNS**® products have been developed on the state of the art to be effective not only on blued metals but also on stainless steel and modern coating such as DuraCoat, Melonite, etc.

WALL **GUNS**® products profit of the experience in industry sectors where cleaning, lubrication and metal protection is vital.

## GUNS OIL #1

Innovative 100% synthetic oil:

Has lubricant and protective function since the particular composition of the molecules produces an electrolyte allowing it to bind to the metal, forming a layer of molecules unidirectional extremely durable and persistent. Also thanks to special additives can ensure protection to metal weapons.

250 ml - fluid

250 ml - fluid

## X-TREME CUPPER REMOVER

**Heavy Bore Cleaner:**  
As above, specifically for heavy-use semi-auto and full auto firearms.

**WARNING:**  
ruins plastic and wood.

250 ml - fluid

## BORE CLEANER

**High grade solvent:**  
First step for cleaning the barrel, thoroughly removes lead scratches, dissolves carbon and plastic residue or any kind of dirt.  
It can also be used in ultrasonic machines.

## CUPPER REMOVER

**Bore Cleaner:**  
Innovative product, does not affect on iron-based metals, it removes from rifling any residue of copper or brass. Specifically for targeting and hunting firearms. After cleaning the barrel has to be lubricated.

400 ml - spray

## FULL AUTO

**Friction Eliminator:**

It is a dry lubricant, ideal for bolts and slides of semi-automatic and automatic weapon burst, dramatically reduces friction and wear preventing malfunction.

**WARNING:**  
Leaves a dark trace.

400 ml - spray

## POLYMERS CONDITIONER

**High quality stock finishing:**

Made to renew and polish the stock and all parts of the polymer arms, removes grease, oil and carbon residue. Suitable for plastic and wood parts.

400 ml - spray

## SILICONE

**Gun Oil #3:**

Silicone-based oil, made to reduce friction and create a barrier against moisture, ideal for the lubrication of air guns or CO2.  
Does not damage wood and polymers.
